

Avances en Estadística Bayesiana No-Paramétrica

Un encuentro con Stephen Walker

Programa

Miércoles 26

Jueves 27

<p>Introduction 1 Igor Prünster and Ramsés Mena <i>10:00–10:30 hrs.</i></p>	<p>Introduction 2 Eduardo Gutiérrez <i>10:00–10:30 hrs.</i></p>
<p>A brief introduction to Bayesian nonparametrics Antonio Lijoi <i>10:30–11:30 hrs.</i></p>	<p>Bayesian asymptotics under the sup-L1 distance in nonparametric conditional density estimation Pierpaolo De Blasi <i>10:30–11:15 hrs.</i></p>
<p><i>Coffee break (11:30 hrs.)</i></p>	<p><i>Coffee break (11:15 hrs.)</i></p>
<p>A new tool for nonparametric estimation of species variety with Gibbs-type priors Stefano Favaro <i>12:00–12:45 hrs.</i></p>	<p>Bayesian nonparametric models for conditional distributions Isadora Antoniano <i>11:15–12:30 hrs.</i></p>
<p>Mixing experts opinions for macroeconomic prediction Juan Carlos Martínez-Ovando <i>12:45–13:30 hrs.</i></p>	<p>Filtering hidden Markov measures Matteo Ruggiero <i>12:30–13:15 hrs.</i></p>
